

MULCHING MACHINE MOD. P

Adjustable machine, optimal to lay the plastic, cellulosic or biodegradable film. It is available in two models: P140 for a max. film width 140 cm, P190 for a max. width 190 cm. and both are available with rubber wheels and / or front roller. Mulching means **covering the free soil around the crops with natural or plastic material**; thus avoiding that the light penetrates and reaches the ground. This technique prevents the development of weeds. Are you looking for a **mulching tool** or **mulching machine**? Pacciamatrice P is the mulching machine for spreading various types of film on the ground!

MOD.				
	cm/in	HP/ЛС	Kg/lb	cm/in
